PROFESSIONAL SUMMARY

Results-driven software developer with expertise in python, Django and React. Experienced in building scalable, secure web applications and integrating payment solutions to optimize user experience. Known for delivering impactful features that drive customer satisfaction and streamline business processes.

PROJECTS

Agent-Free Borewell Booking System | [DEMO](#) | [GITHUB](#)

- Developed a full-stack borewell booking platform using **React**, enabling customers to directly book borewell services without third-party agents.
- Integrated **review and rating system**, allowing customers to share feedback, helping future users make informed decisions.

Tour Guide Booking Website

- Designed a **search and filter interface** for users to browse guides by location, expertise, and availability.
 - Enabled **online guide registration**, profile creation, and **tour booking management**, streamlining the entire process.
 - Incorporated **secure payment gateway integration** and **email confirmations**, improving booking reliability and user trust.

Resume Filtering Software | [DEMO](#) | [GITHUB](#)

- Designed an intelligent resume filtering system using Python and Natural Language Processing (NLP) techniques to automate candidate shortlisting based on job role requirements.
 - Implemented text extraction and parsing from PDFs using tools like PyPDF2 and spaCy for skill and keyword matching.
 - Developed an intuitive web interface using Flask and Bootstrap, allowing HR teams to upload resumes and view ranked results instantly.
 - Achieved efficient filtering through cosine similarity and TF-IDF based matching, significantly reducing manual effort in the hiring process.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript
- **Backend:** Django
- **Frontend:** Bootstrap
- **Databases:** MySQL
- **Other Tools:** Git, GitHub, Postman

CERTIFICATION

- **Build Your Own Responsive Website** | [NxtWave](#) | [CERTIFICATE](#)

Dec 2024
